

## VGF Series Filter Grille Media Air Cleaner Replacement Filter

# VGF-MERV 11 & 13

Turn any filter grille into a media air cleaner

Here are key features & benefits of these filters:

### FEATURES:

3" Deep Pleated Design Provides the Following Benefits:

- Fits most 1" Return Air Grilles without modification
- Lower static pressure than 1" MERV 8 filters
- Lasts up to 6 months or longer
- Supports biannual preventive maintenance schedules
- High Efficiency Media available in MERV 11 or MERV 13
- Foam gasket ensures complete seal with no air bypass

**Robust Construction:** Features superior frame strength with double-wall construction and die-cut fingers, ensuring durability and consistent performance.

**Wire Mesh Support:** A galvanized rust-resistant wire mesh supports the integral filter media, maintaining pleat shape even as the filter becomes dirty.

**Durability:** The heavy-duty moisture-resistant filter frame retains its strength and shape even in high humidity environments, ensuring longevity and consistent performance.

### ZEPHYR VGF SERIES

### DEEP PLEATED MERV 13 & 11

### MEDIA AIR CLEANERS ARE THE

### HIGH EFFICIENCY, HIGH CAPACITY IAQ

### ANSWER FOR DIRECT REPLACEMENT

### OF STANDARD 1" FILTERS.

### PERFORMANCE:

- 1. Filtration Efficiency:** The non-woven, 4-inch thick, pleated media filter is capable of trapping small particles, ensuring excellent air purification.
- 2. Low initial pressure drop**

Zephyr Filtration Media Air Cleaners are ideal for those looking to gain superior protection on equipment from dust buildup and superior performance.
