

Southwire™

Romex™ BRAND **SMARTSHIELD™** NAIL GUARD

Nail plates, reimagined. Southwire's Romex™ Brand SmartShield™ Nail Guard is an innovative steel nail guard that protects wire and cable in wood framing. The unique cylindrical shape houses wire and cable for better protection from both sides of the stud, eliminating the need for multiple standard nail plates. Smart Shield is faster and easier to install, and eliminates drywall budge caused by using surface mounted nail plates.

Manufactured with heat treated steel for strength, Romex™ Brand SmartShield™ Nail Guard is also zinc plated to reduce electrolysis. It is resistant to direct strikes from nail guns and screws, and preventing damage to electrical power cables, potentially shorting the conductors and starting a fire.

**PROVIDES PROTECTION
TO BOTH SIDES OF THE STUD**

**FASTER & EASIER TO INSTALL
THAN TRADITIONAL NAIL PLATES**

**CAN BE INSTALLED BEFORE
OR AFTER CABLE IS PLACED**

**SAFER TO HANDLE, LESS
CHANCE OF INJURY FROM
PROTRUDING FLAT PLATE BARBS**

WON'T BEND WHEN INSTALLING
