

**PURE BEAM™ ULTRAVIOLET LIGHT**

**Pure-Beam™ Ultraviolet Light**

Pure Beam™ ultraviolet light is designed for HVAC air disinfection and surface irradiation. The 17 watt UV C lamp is a powerful tool for improved indoor air quality. Installs in the HVAC system or ductwork on either the return or supply air side of the furnace or air handler. DiversiTech's Pure Beam™ ultraviolet light provides a healthier environment in your home, thanks to the germicidal qualities of the UV light spectrum present in the Pure Beam™ light. Ultraviolet light deactivates the DNA of dust mites, bacteria, viruses and other pathogens and destroys their ability to multiply and cause disease. Placement of a Pure Beam™ light in an airstream or near a drain pan can help to decrease the air contamination of any home. Exposure to Pure Beam™ significantly reduces air contamination caused by fungus, mold, and viruses and can cleanse surfaces overcome by mold and slime. Overall size is 14 in. L x 2 in. W x 2 in. H for easy placement. Includes the UV lamp, a UL listed ceramic base, and mounting bracket.
